MULTIPLE PRESSURE HYDRAULIC LOAD MAINTAINERS AND CYCLING UNITS 10,000, 7500, 5000, 2500 AND 1000 PSI

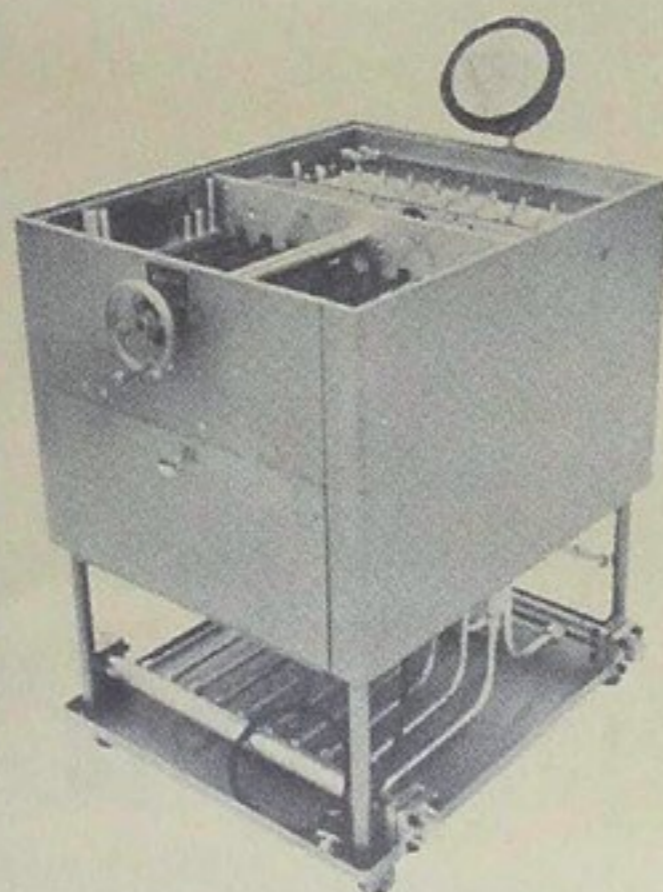

Challenger Model 6 FC

Challenger Models 6FC and 10FC—multiple pressure hydraulic load maintainers and cycling units for accurate static and fatigue testing of aircraft and missile components. For static testing, a single manual control enables the operator to vary the outlet pressures simultaneously from zero to 100% of the preset maximum pressures.

Challenger Model 10 FC

FIRMS NOW USING CHALLENGER MODEL MULTIPLE PRESSURE LOAD MAINTAINERS

Model 10 M

This 10 channel unit is manually controlled. Accurate static testing of aircraft and missile components is its principal function. Interchangeable valve assemblies for 1,000, 2,500, 5,000, 7,500 and 10,000 PSI are available for this unit. (Model 6M has only 6 pressure channels).

Kitty Hawk, the past.

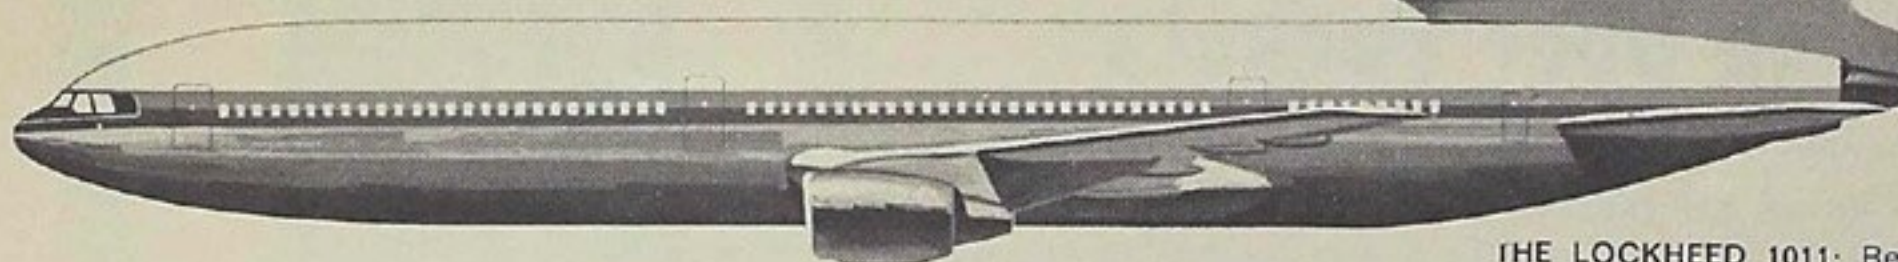

THE LOCKHEED 1026: Currently in design-study, this intercity commuter compound (winged helicopter) will employ Lockheed's Rigid Rotor, considered the greatest advance in aviation since the jet engine.

THE SR-71: Currently in service with the Strategic Air Command of the U.S. Air Force, the SR-71 is the world's first operational Mach 3 aircraft.

THE AH-56A CHEYENNE: Ordered into production by the U.S. Army early in 1968, this Rigid Rotor compound is the first helicopter designed as an integrated weapons system.

THE LOCKHEED 1011: Recently the object of the largest airliner order in history, this 300-passenger giant will set new standards of comfort in air travel. Initial delivery is scheduled for 1971.

THE P-3C ORION: The latest in Lockheed's series of increasingly advanced antisubmarine aircraft, the P-3C Orion is scheduled for delivery to the U.S. Navy in 1969.

San Fernando and Antelope Valleys, the future.

On December 17, 1903, on a grassy field at Kitty Hawk, North Carolina, the Wright Brothers changed the world. Their fragile 12-horsepower biplane lurched and skittered across that field, gained momentum, and was airborne. For the first time, man was aloft in a maneuverable powered vehicle. By implication, the world became much smaller; mankind

lost the easy provincialism of immobility.

More than six decades have passed. The scene has shifted to Southern California: Burbank, Van Nuys, Palmdale, and Rye Canyon. Instead of the two Wright Brothers, some 22,000 highly skilled people are at work. But the task is the same: extending the frontiers of flight.

ZERO ZERO MANUFACTURING CO.

Zero Modular Re-usable Shipping Storage Containers PER MIL-C-22443

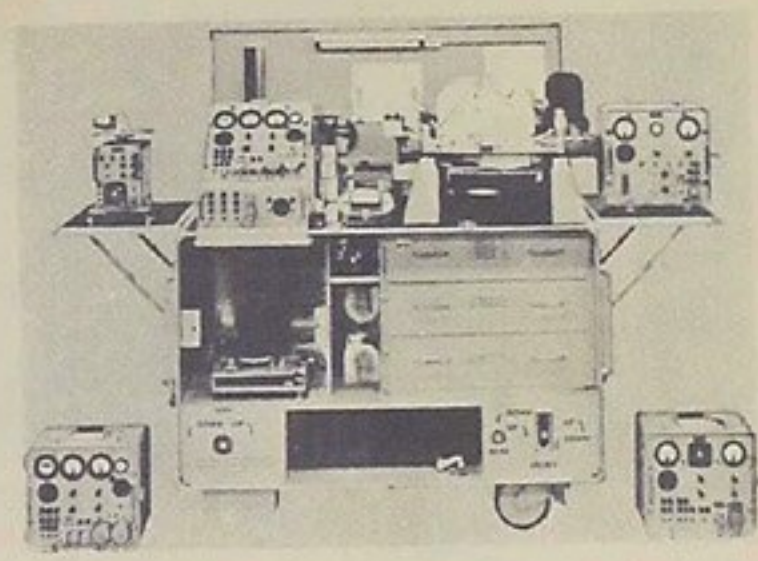

Available in either aluminum or steel, Zero Modular Containers are constructed to meet or exceed MIL-C-22443. This new packaging system utilizes a building block concept whereby pre-engineered components are assembled and bonded with epoxy resins in a special process. The resultant product is more rugged and is less costly than conventional fabricated sheet metal containers. Design time is reduced from weeks to days since all components are pre-engineered. Zero Modular Containers have been produced in sizes up to 50 feet long, although longer cases are possible and practical. For more information on Zero Modular Containers request Zero Catalog E.

PATENTED—U. S. PATENT 3044658

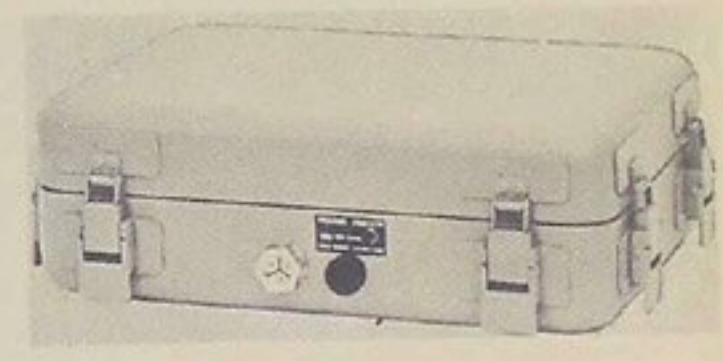

Zero Ply

The Zero-Ply process combines the strength and light weights of aluminum-clad plywood and other sandwich materials, in an aluminum-framed epoxy-bonded structure. Zero-Ply containers can be designed and constructed to any size and configuration, quickly and economically. For more information on Zero-Ply, structural sandwich panels and cases request Zero Catalog E.

Polaris Spares Containers Per BUWEPS Drawing List 2210448 and MS 180266

NOW AVAILABLE FROM ZERO AS STANDARD ITEMS WITH NO TOOLING COST. ALL 31 SIZES OF SPARES CONTAINERS AS REQUIRED FOR POLARIS MISSILE SUB-SYSTEM PACKAGING. FOR PRICES AND DELIVERY CONTACT YOUR ZERO SALES ENGINEER OR WRITE TO THE NEAREST FACTORY.

CITY DIRECTORIES

Polk City Directories are published regularly for more than 1,200 American cities. Each Polk Directory is the one complete inventory of residents and businesses in the community for which it is published. The compiled for a City Directory is the name, address, occupation, marital status of each resident, name, address, ownership and location of each business. The kind of information in a Polk Directory helps bring together buyers and facilitates credit, speech delivery, communication and stimulates generally. Polk also cooperates in maintaining City Directories in Libraries in cities throughout the United States and Canada.

AUTOMOTIVE STATISTICS

Polk has served as statistician of the automotive industry for many years. Polk's annual car, truck, motorcycle and motor vehicle reports furnish an annual inventory of the wheeled population. Reports and truck reports furnish users and dealers with solutions of all sales problems. To produce these reports, Polk maintains one of the largest processing installations in the country. By using Polk's services, American business intelligently its production and sales.
