LESS THAN A DECADE AGO THE COSMOS BELONGED ONLY TO CHILDREN

A child is not fettered by the-infinite.  
 For even beyond forever lies discovery. Discovery that begins when a mind asks "why?". This basic probing, this "why?", repeated time and again, has led man down incredible avenues of adventure. And knowledge begets knowledge, with each new discovery dovetailing and complementing the last. Lockheed is a leader in today's accelerated surge of progress. It has put wings on the fastest jet plane in the world. It probes the universe. It explores phenomena at ocean depths.

It applies computers to myriad tasks on earth.  
 Today, as the men of Lockheed continue to grow in their basic understanding and command of the esoteric mysteries of nature, so too, grows all of mankind. And the reason for growing is clear.

Tomorrow awaits.
